

## 700B AUTOMATIC PACKING LANE

### Features

- ◆ 700B automatic packing lane includes single dropset and manual egg tray stacker.
- ◆ Empty trays must be manually placed in the egg tray stacker, allowing the stacker to send the empty trays to where the eggs will drop from.
- ◆ The single dropset unit drops down the eggs into 6, 10, 12, 15, 18, 20, 24,30 egg carton or tray automatically.
- ◆ Each grade could be attached with one auto packing lane, and the lanes without auto packer will require manual collection conveyor.
